**RE: L.E. CARPENTER WHARTON, NEW JERSEY
1986 ADMINISTRATIVE CONSENT ORDER
FOURTH QUARTER 1992 PROGRESS REPORT**

Dear Ms. Purcell:

In accordance with Paragraph 35 of the 1986 L.E. Carpenter/New Jersey Department of Environmental Protection and Energy (NJDEPE) Administrative Consent Order Roy F. Weston, Inc. (WESTON®), on behalf of L.E. Carpenter and Company, is pleased to present the quarter report for the fourth quarter 1992 covering the months of November 1992 through January 1993. The data collected during this quarter indicate equipotential patterns similar to those observed previously at this site. In addition to the sampling required by the ACO, WESTON sampled MW-11d in response to the U.S. EPA's request for confirmation of DEHP levels previously detected in the well during a 1990 sampling event. Dedicated Well Wizard bladder pumps were installed in the four wells sampled quarterly.

A total of 23 temporary well points were installed in January and February 1993, and product measurement data from these well points indicate considerably less free product than previously reported. A total of 556 gallons of product was recovered by the Enhanced Immiscible Product Recovery System during this quarter.

If you require any further information, please contact me at (908) 225-3990.

Very truly yours,
ROY F. WESTON, INC.
